DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-25, 31,32,34,35, and 37-40, drawn to an image enhancement apparatus, classified in class 382, subclass 254.
 - II. Claims 26-30, 33-36, drawn to an image storage and retrieval apparatus using user identification, classified in class 282, subclass 305.
- The inventions are distinct, each from the other because of the following reasons:
 2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as storage means for storing user information which includes user identification information used for identifying a user terminal, and improvement-information identification information used for identifying improvement information improving the quality of data processed in the user terminal. See MPEP § 806.05(d).
 3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 3621

4. A telephone call was made to William Frommer (Reg. No. 25506) on November 9, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
